

Benefit from our *innovative* approach, *Extensive* experience and *Bright* thinking...

## Organisational Capability:

n.

1. An organisations ability to achieve its goals
2. An organisations ability to function effectively and change appropriately to deliver its strategy through aligned people, systems and processes.

Bright People Pty Ltd (Bright People) is a bespoke organisational capability practice, partnering to deliver breakthroughs in performance by aligning organisations, people, systems and processes to strategy.

We partner with our clients to confront challenges and maximise opportunities. Our experienced practitioners focus on delivering business strategy by aligning and improving the organisational health and performance, bringing pragmatic systems thinking, design and delivery expertise. We have an enviable reputation for delivering fit-for-purpose, evidence based solutions with our clients supporting them to shine.

Headquartered in Brisbane, Queensland, Australia, Bright People was established in 2016 by its founder and Executive Director Ryan Bright. Bright People operate nationally and internationally.

Our bright people are pragmatic, experienced and flexible. These characteristics, coupled with our commitment to deliver sustainable results, enables us to define, design and deliver solutions which unlock value. We have expertly managed people, innovation, and change for some of the world's most highly-regarded companies.

## Our Approach

Partnering with us strengthens your organisation's capability; we work with you to deliver desired outcomes.

**Discover:** We review your current and desired reality. We seek to understand where you are today and explore where you want to be.

**Define:** We identify the options and levers to enable the shift to your desired future state and provide pragmatic recommendations.

**Deliver:** We partner with you to implement and deliver business value based on your requirements and tailored to your needs.

## Our Expertise

Our expertise in driving strategic change, developing targeted capability development initiatives and implementing commercially effective solutions are second-to-none.

We bring global experience from a variety of industries, including Aerospace, Mining and Resources, Engineering, Financial Services, Manufacturing, Logistics, Retail, and Government.

Our practice services include:

- Organisational capability advisory
- Analytics and Insights
- Operational delivery support across people, systems, & processes

We partner with leading universities, research institutions, and technologists to support bringing the latest thinking and industry advancements to each engagement.

By partnering with Bright People, you will benefit from our skills and experience in successfully improving your organisations capability to deliver business strategy through aligned people, systems & processes.

## Our Values

We operate with integrity, respect, curiosity, innovation, and trust.
